Re: United States Patent for *Optimization of Multi-Dimensional Time Series Processing for Seizure Warning and Prediction*
Application No. 10/648,354; Filed August 27, 2003
Patent No. 7,373,199 B2; Issued May 13, 2008
Our File 049648/341578

Sir:

It is respectfully requested that a Certificate of Correction be issued for the above-identified patent, in accordance with 37 C.F.R. §1.322. This request is made in order to correct the mistakes incurred through the fault of the United States Patent and Trademark Office ("USPTO").

As supporting evidence to add the two inventors listed on the Certificate of Correction, Applicant directs your attention to the following:

- On March 16, 2006, Correction of Inventorship papers were filed in this application and these documents are viewable in PAIR.
- On April 23, 2008, because the patent was getting ready to grant and the initial correction of inventorship papers were not allowed, Applicant filed an Amendment, Petition, and Fee to Correct Inventorship, and these documents are viewable in PAIR.

The first request for correction of inventorship was filed by the law firm of Buchanan Ingersoll PC. The responsibility for the prosecution of this application transferred to our firm on April 9, 2008. In reviewing the prosecution history, we noted the correction of inventorship had not been allowed, and thus sent a new Petition for correction.

The mistakes appearing in the patent are set forth on the Certificate of Correction e-filed herewith.

Respectfully submitted,

/Dane A. Baltich/
